WESTERN BLEND HORSE 50#

This feed is designed to be fed to maintenance, performance, and breeding horses either as a complete feed or supplemented with hay or pasture equivalent.

GUARANTEED ANALYSIS

Crude Protein	Min.	10.0 %	
Crude Fat	Min.	3.0 %	
Crude Fiber	Max.	25.0 %	
Calcium	Min.	0.6 %	Max. 1.1 %
Phosphorus	Min.	0.5 %	
Sodium	Min.	0.2 %	Max. 0.6 %
Copper	Min.	25 PPM	
Selenium	Min.	0.3 PPM	
Zinc	Min.	120 PPM	
Vitamin A	Min.	12,000 IU/LB	

INGREDIENTS: Wheat Middlings, Alfalfa Meal, Almond Shell Ground (Not more than 14%), Rice Bran, Cane Molasses, Salt, Calcium Carbonate, Manganese Sulfate, Zinc Sulfate, Copper Sulfate, Vitamin E Supplement, Selenium Yeast, Ferrous Sulfate, Niacin, Riboflavin Supplement, Vitamin A Supplement, Calcium Pantothenate, Biotin, Choline Chloride, Sodium Selenite, Thiamine Mononitrate, Vitamin D3 Supplement, Vitamin B-12 Supplement, Folic Acid, Calcium Iodate, Cobalt Sulfate, Diatomaceous Earth.

FEEDING DIRECTIONS: Each horse is unique and should be fed to maintain desired body condition and performance. Feeding rates need to be adjusted according to the horse's condition and training or competition schedule. Split the recommended feeding levels into two or more feedings each day. As a complete feed, provide at the rate of 1.5 to 2 lbs per 100 lbs of bodyweight per day. Or along with forage, feed at the rate of 0.5 to 1.0 lbs per 100 lbs bodyweight per day along with a good, clean quality hay or pasture equivalent at the rate of 1 to 1.5 lbs per 100 lbs of bodyweight daily. Make all feeding changes gradually over a two week period. Provide plenty of fresh, clean water at all times except to hot, tired horses. Horses should be cooled out properly before having access to unlimited water or being fed. Horses should have their feeding rate reduced when exercise is reduced. Salt should be available free choice.
