

SWEETLIX 20% ALL PURPOSE BLOCK (10991)

Feed Attributes

- Highly palatable source of protein for all species of livestock and wildlife.
- Ideal for producers who co-pasture multiple species of livestock.
- Convenient, 33.3-lb. size is easily transported.
- Provides animals 24-hour access to protein supplementation.
- Compliments hand-feeding systems well.

Feeding and Management Directions

1. Feed at a rate of one block per 5 head of cattle or horses; one block per 20 head of sheep, goats or deer.
2. The location of blocks is EXTREMELY IMPORTANT for adequate consumption. Place blocks where animals congregate: watering, feeding and loafing areas.
3. Cattle or horses will consume about 1 lb. per head per day; sheep, goats or deer about 0.25 lb. per head per day.
4. Omit all other sources of salt. This block contains all the salt needed when consumed at the recommended level.
5. Variations in animal routine due to climate or feed may change their feeding and watering habits. RELOCATE blocks IMMEDIATELY as necessary.
6. During inclement weather or muddy conditions, it is desirable to place blocks in bunks or containers.
7. Provide adequate amounts of water, forage and supplemental feed.
