FEEDING DIRECTIONS: Each pound of this medicated feed contains 15 mg/lb of Lasalocid. Feed not less than 1 pounds per head to provide 15 mg of Lasalocid and not more than 4.7 pounds per head to provide 70 mg of Lasalocid depending on body weight. Make any feeding changes gradual over a period of two weeks. Feed along with hay or roughage source. Have free choice salt licks available. Provide plenty of fresh, clean water at all times. **CAUTION:** Feeding undiluted or mixing errors may result in an excess Lasalocid concentration which could be fatal to cattle and sheep. Do not allow horses or other equines access to feeds containing Lasalocid as ingestion may be fatal. Safety of Lasalocid for use in unapproved species has not been established. **CAUTION:** This feed contains a source of non-protein nitrogen. Consumption should be carefully controlled until animals become adjusted to the feed. Additional care should be exercised with starved, stressed or debilitated animals. **FOR RUMINANTS ONLY**

This feed was produced in a facility certified in the American Feed Industry Association's Safe Feed/Safe Food Certification Program; for details go to: www.safefeedsafefood.org.
